Attention: War Plans For The World and Australia for
American Full Dominance – Control Of The World

Dear Director

And team members, first off may I say thank you to you all and I ask the Director to take time out and go around and thank you for the work you do at keeping Law, Order in our beautiful country.

Our politicians whether it be Liberal / National Coalition Prime Minister Tony Abbott – or – Labour Opposition Leader, not one of these gutless, weak sell out, Puppet – Stooges to the Americans will ever stand up and say thank you for the position your in at the moment you have to work under with the turmoil what is going on in the World.

So thank you on behalf of the rest of my fellow Australians for the work you do.

War Plans America has to implement for the Full and Utter take over of the Whole World – Full Dominance and Control

Oceans, Land, Countries and Oil, Gas, Resources,
Minerals and Financial Banking, and Trade Treaties.

Sept 11th 2001 Was when America declared War Upon The
Whole World and its countries & people of the World.

Read:

- Project For The New American Century, this is their plans what they have for the Whole World including Australia.
- The Clean Break Plan & The Greater Israel Plan, this is what the current carry on in the Middle East is about draw USA and NATO and any Coalition of the stupid into a big **“Vortex”** War thus achieve those plans, ideas, goals.
- ASIA and Africa, they will use the “Al Qaeda” & South America Plan, that is to say how much do people know about history?

What America did to all those South American countries armed groups, gangs with weapons which then these rebels went to bat to fight against their Governments, these South American Governments where destroyed and chaos rules, then American Military moved in.

And brought calm to the place while Multi National Companies went in and brought Resources, Minerals and State Assets for pennies on the dollar.

Truth be known all except for Castro he kicked the Americans out and demanded they pay a fair price for Resources and Minerals and the Break Up of State owned Assets hence Cuba went on for years even until today as a country out on their own.

How America Plans to take down Australia and the rest of the Pacific – Asian – African Countries?

- 1) Using that TPP Trade treaty which has nothing to do with trade, but handing control over to America and the Big Multi National Gobaist & Banking Cartels, which are pushing America for Full and Utter control including World Government.
- 2) Using the “Al Qa`eda” Muslim Radical Plan and the South American Option upon all these countries.

E.G 2 A) “Al Qa`eda Muslim Radical Plan arm all these Radical Muslims in all these countries with weapons through different sources within their own countries, so then they will be armed and then put out to fight against their own Governments to introduce Sharia Law Rubbish.

E.G 2 B) The South American Option, within these countries arm street gangs, bkie gangs and anybody out there like that to fight against their Government.

This is basically American and The Pentagon – CIA Plans are for taking Australia and the rest of the countries about down.

My Plan Is Called “Operations Clean Out & Mop Up”

Seen Labour & Liberal State and Federal Governments wont do the following, some of us **“We The People”** are going to have to stand up, take action and do things, implement things here and there which not only will render any **“Blow Back”** Australia gets from WW111 and The Middle East War which is taking place.

But it will help strengthen our Country, and stop other things, which might feed into this **“Blow Back”** and make yours and the State & Federal Police harder at keeping Law and order.

In turn we beat America at their own game, have strengthen our own society, crack down on Lawlessness, and will make it harder for the Americans to take us over, with the plans they have for us eventually.

“Operations Clean Out & Mop Up”

1) New Legislation is introduced into the Parliament about Muslims and Mosques.

A) All Muslim Mosques in Australia are raided and cleaned out of any weapons they may have stored there, Guns, Knives etc.

B) Any Muslim Mosques caught with weapons of any kind that Mosque will be closed down and the Leaders Prosecuted to the Fullest.

C) Any Muslims caught going overseas to fight in the Middle East Wars their Australian Citizenship is cancelled and they cannot claim any Australian Governments Benefits or apply for an Australian Passport for 5 years.

D) They are recruited to The Australian Military to serve a period of 5 Years service, as a way of de-programming them from their radical ways and the Military can make them into productive people putting back something to the country and their Government and fellow citizens.

2) All Bike Gangs in Australia Raided for Weapons Knives, Guns and a total clean out of these Bike Gangs Weapons take place.

Legislation introduced into the Parliament

A) Outlawing Bike Gangs to have weapons of any type knives, guns, Leaders of these Gangs are Prosecuted to the Fullest and after fines etc are recruited to the Military for 5 Years Service, the Military can make them into productive people putting back something to the country and their Government and fellow citizens.

3) The Government to re-introduce Compulsory Military Service 5 Years for everybody Man, Woman, Kids from 16 to 35 Years old

Young people will have a choice stay on and study till Grade 12, and then go to College or University or get a Job.

If they cant get a job, they are recruited to the Military for 5 years Service to teach then a trade, Carpentry, Plumbing, Mechanics etc.

Hence the Government will solve Youth Unemployment,
Clean up Society of all these teams of Youth Gangs
Roaming the streets, Lebanese, Muslim Youths etc.

So when it comes Australia's turn to be taken down by
America we have dis-armed all the possible people that
could be armed to fight against our Government, ASIO,
Police and Military, hence we have pulled American teeth
out so our society will be Protected _ Borders Secured
from within from any and all type of up rising which might
happen for a complete and utter take over.

I am not talking about turning Australia into a Police
State none of us want to see that, my God I am against a
Total Police State and One World Government of which
Australia has to surrender it people and Sovereignty to.
No, No, No, No.

But what I am concerned about we should be making
plans for our eventual take over, whether by America,
China or Russia, America is the only threat at the moment
to Australia and its people.

The above will squash (Any & ALL) forms of Radical
"Blow Back" Australia may get with other problems
like youth Unemployment and Gangs Problems, Bkie
problems this country faces and have to deal with, these
things feeding into the **"Blow Back"** from the Middle
East.

Does that make sense?

Anyway this is my 2 Bobs worth, I hope I have given you
some plans, goals, idea's to work on and upon to
implement to help keep Peace and Order in our country.

Now begins the hard job of selling the above to Puppet – Stooges, Bubble Head Politicians I wish you luck and success.

These clowns in Canberra have done everything to date with that Terrorism Legislation they are introducing into Parliament, I just think the areas talked about above they left out and were over looked, and nobody took into consideration, talked to anybody about first.

So I feel more work like I talk about above should seriously be looked at and implemented.

Thanks for reading and listening!

Yours truly
Lloyd T Vance
